

Referee or Referee Assignor Clinics

New leagues must have a referee clinic conducted in their area in order to increase the available number of adult referees to help provide coverage for their games as well as surrounding leagues as the number of games increases. The course must include a minimum of 15 adults ages 18 or over.

To set up a course contact Jozsef Michna, State Referee Administrator (see listing below) or your local District Referee Administrator or Area Referee Administrator Contact. Or you can go to www.fsr-inc.com and click on courses.

Basic course requirements:

- 1) Request course approximately 4-6 weeks in advance
- 2) Number of students is 15 minimum/30 maximum (80% must be adults)
- 3) Course fee is \$60 per student – payment to FSR
- 4) Registration due after successful completion of the course.
- 5) Sponsoring organization must provide adequate teaching facility

After the course has been held new leagues should inform the FSSA office (include the course number) so that the league's records can be updated showing they fulfilled this requirement.
